ZEPHYR

Like a zephyr in July
Inhale it all exhale my soul
Soon you're packing disappear
Sometime we rock sometimes we roll

Good western wind I missed you
And all our secrets
Slow down and walk with me on
Morning dew
Don't whine and moan even though
There's million reasons
Calm me down right here
Next to you
Before I'm someone new

Like a zephyr in July
Came in and slipped away
Now I chase the warmth you left
Left behind each day

Good western wind I missed you
And all our secrets
Slow down and walk with me on
Morning dew
Don't whine and moan even though
There's million reasons
Calm me down right here
Next to you
Before I'm someone new

THIS TOWN

BubbLY

You can have it if you want
I won't hold you back
Never saw you as a greedy one
Go try your luck
Working from 9 to 5
Giving it all your life
What are you running from
I can confirm

There is something wrong in this town
It's in me in you in everyone
There is something wrong in this town
And so far I can't figure out

You can have it if you want
As much as you can take
Well you can only fool yourself
Make no mistake
What are you looking for
Can you really ask for more
What are you running from
One thing is clear

There is something wrong in this town
It's in me in you in everyone
There is something wrong in this town
And maybe it's time
There is something wrong in this town
It's in me in you in everyone
There is something wrong in this town
Somebody help me understand

YOU AND ME

When I'm in a deep dark wood
Dare to think of what we could
There's no reason to run
You can tell me all you've done
I can screen I'm not afraid
First I was but now I'm brave
We are facing a same wild boar
But I can wait

'Cause you and me you and me
This is how it's supposed to be
You and me you and me
More than eyes can ever see
You and me you and me
Baby it's always bittersweet
You and me you and me you and me

For in love there is no rest
Kiss the pain of off my chest
Here we sit and there we lay
Drawing close and drift away
Oh a different face of yours
Good and bad I'm here for more
We are facing a same wild boar
But I can wait

'Cause you and me you and me
This is how it's supposed to be
You and me you and me
More than eyes can ever see
You and me you and me
Baby it's always bittersweet
You and me you and me you and me

HEART OF GOLD

I can love without conditions
I believe my intuition
Words unsaid
I can live without tomorrow
Staying on the straight and narrow
I can tell
That we still have so much in common
But you're a man and I'm a woman
Don't forget

I can see it in your eyes
You're not like the other guys
Under different circumstances I
Wouldn't hesitate to find myself in your embrace
Steal your heart of gold
Heart of gold

I can wake up in the morning
And show up without a warning
At your door
I can see my life is changing
And the stars are rearranging
To get near
We still have so much in common
But you're a man and I'm a woman
Can't you see

I can feel it in the air
They say all in love is fair
Under different circumstances I
Wouldn't hesistate to find myself in your embrace
Steal your heart of gold
Heart of gold
Yeah I won't hesitate to fall right into your embrace
Steal your heart of gold
Heart of gold

MY ALL

Somebody told me that one day
I'd have to let go
I did my best to defend it
But not anymore
'Cause I tried so hard to please
But it seems like no one sees
And it ain't nobody's fault

I gave it my all

Maybe I need some persuasion
To live in denial
I must confess to a stranger
Paid by the hour
When you walked into blue moon
Where there's no more place for two
And I knew just what to do

I gave it my all

I ran away with my head up
Then woke up
I walked away with my head down
Wear the crown

Somebody told me that one day
I'd have to let go
I did my best to defend it
But not anymore
When you walked into blue moon
Where there's no more place for two
And I knew just what to do

I gave it my all

LONG TIME AGO

Where the hell did I ever treat you wrong
I think we could have heard each other more
The door to a better future still ajar

Long time ago long time ago
Didn't have to say I love you 'cause you'd know
Long time ago long time ago
Didn't have to say you love me 'cause it showed

I'm just staring at our past from afar
We will always live our lives hit the road
I was there to remind you of the good

Long time ago long time ago
Didn't have to say I love you 'cause you'd know
Long time ago long time ago
Our wide awake nights played out in slo-mo
Long time ago long time ago
Where did all go wrong

Well sometimes I realise we could've taken different turns
When to stand our ground and when to let it go
I'm reliving all the moments we have chosed to go through
Drop and spill our hearts

Long time ago long time ago
You tried to read my mind
Long time ago long time ago
Didn't have to say I love you 'cause you'd know

BLACK AND WHITE

I question you is it right
To see the world in black and white
Turn off the light now what you see
Remember all of me
You might remember all of me

I go for gold
Would you like to show me bright and soft
I go for gold
Would you like to show me bright and
Would you like to show me bright and soft

The color that calls my name
Ignites and sparks the flame
In my eyes what you see
The brightest light the deepest sea
The brigthest light the deepest sea

I go for gold
Would you like to show me bright and soft
I go for gold
Would you like to show me bright and
Would you like to show me bright and soft
